Full Stack Web Developer with skills in both front and back end applications. Seeking to leverage 10+ years of project management experience and a passion for analyzing and solving problems to secure a role as a web developer. Enjoys using innovative techniques as well as a strong attention to detail to get a project done with the clients expectations not only met, but exceeded.

Technical Skills

Frontend: HTML5, CSS, JQuery, JavaScript, Bootstrap

Backend: JavaScript, MySQL, MongoDB, Express, NodeJS, OOP, TDD

Education

Certificate in Full Stack Web Development, University of Connecticut

Currently enrolled

Projects

README Generator Pro | Repo - <https://bit.ly/3oTGwi1>

Solo Project

- A command-line application that dynamically generates a professional README.md file from a user's input using the Inquirer package.
- Example project showcasing my knowledge of JavaScript and NodeJS
- Tools/Languages: JavaScript, NodeJS, Inquirer

Weather-Dashboard | Repo - <https://bit.ly/3l2YdKN> | Deployed - <https://bit.ly/3CLHLou>

Solo Project

- A browser based calendar application that allows a user to save events for each hour of the day. Each time block is color-coded to indicate whether it is in the past, present, or future based on the current time.
- Example project showcasing my knowledge of JavaScript and API fetch requests.
- Tools/Languages: HTML, CSS, JavaScript

Emprise | Repo - <https://bit.ly/3l34ypl> | Deployed - <https://bit.ly/30VfcYD>

Team-member

- Emprise is a browser based flight search app. When you select your origin, destination, start date and end date, the app provides you with the lowest fare available.
- For this group project I handled the calls to the Skyscanner API as well as JavaScript on the landing page UI.
- Tools/Languages: JavaScript

Work Experience

Anchor Insulation

April 2003 - July 2021

Director of Sales/Project Manager

Norwich, CT

- Combined entrepreneurial drive with business-management skills to drive gains in revenue, market share and profit performance.
- Responsible for budgeting and forecasting, expense reporting, risk management, status reporting, and execution
- Created project documentation and strategy plans
- Accounted for complete project lifecycle from inception to closure
