I am a Full Stack Web Developer that has skills in both front and back end applications. In my previous career as a project manager, I used my passion for analyzing problems and building systems and processes to solve them to complete many successful projects. I enjoy using innovative techniques as well as a strong attention to detail to get a project done with the clients expectations not only met, but exceeded. I seek a role as a web developer at a company where I can learn, grow, and continue to master the craft.

Technical Skills

Frontend: HTML5, CSS, JQuery, Javascript, Bootstrap

Backend: Javascript, MySQL, Express, NodeJS, OOP, TDD

Projects

README Generator Pro | [Repo](#)

Solo Project

- A command-line application that dynamically generates a professional README.md file from a user's input using the Inquirer package.
- Example project showcasing my knowledge of Javascript and NodeJS
- Tools/Languages: Javascript, NodeJS, Inquirer

Weather-Dashboard | [Repo](#) | [Deployed](#)

Solo Project

- A browser based calendar application that allows a user to save events for each hour of the day. Each time block is color-coded to indicate whether it is in the past, present, or future based on the current time.
- Example project showcasing my knowledge of javascript and API fetch requests.
- Tools/Languages: HTML, CSS, Javascript

Emprise | [Repo](#) | [Deployed](#)

Team-member

- Emprise is a browser based flight search app. When you select your origin, destination, start date and end date, the app provides you with the lowest fare available.
- For this group project I handled the calls to the Skyscanner API as well as javascript on the landing page UI.
- Tools/Languages: Javascript

Work Experience

Anchor Insulation

April 2003 - July 2021

Director of Sales/Project Manager

Norwich, CT

- Combined entrepreneurial drive with business-management skills to drive gains in revenue, market share and profit performance.
- Responsible for budgeting and forecasting, expense reporting, risk management, status reporting, and execution
- Created project documentation and strategy plans
- Accounted for complete project lifecycle from inception to closure
